## 192-SA Signal Amplifier

ATG ELECTRONICS

ATG Electronics® Master™ 192-SA Signal Amplifier is a simple and affordable solution for synchronizing multiple RGB LED Lighting Fixtures, especially Smart™ Series RGB LED Wall Washers, simultaneously. Master™ 192-SA works at 120VAC or 240VAC, and has XLR-3 male and female I/O signal cables; which enables the user a plug-n-play system. With microcomputer control technology, the Signal Amplifier meets DMX512 protocols, and repeats signal to control unlimited number of fixtures. With real-time color and effect changes, switch settings take effect immediately without having to re-power the lighting fixtures.
